

HOW TO MAKE THE BEAN-COUNTERS HAPPY

Other than agreeing to work for free, what can you do to make the finance folks kick up their heels? Just say NO! Here's how:

NO maintenance

AC Plus 7.0 is Web-based, so whether you lease or purchase, you'll never have to worry about installing and maintaining software on multiple workstations, supporting disparate operating systems, or losing data if one of your computers crashes.

NO annual fees

Unlimited computers, users, and data are included in your AC Plus 7.0 license, and all in-version upgrades are included at no extra charge for as long as you use the software.

NO surprises

Hey, there are certain kinds of surprises we like (a Publisher's Clearinghouse check in the mail would be nice) and certain kinds we don't (like our latest cable bill). AC Plus 7.0 is complete as-is: no need to buy expensive licenses for every workstation, pay annual membership or maintenance fees, or purchase costly add-ons.

TRY US FREE...AND SEE

We're so sure you'll love AC Plus 7.0 that we're offering a 15-day no-obligation trial period. Try us and see the difference for yourself!

What can AC Plus 7.0 do for you?

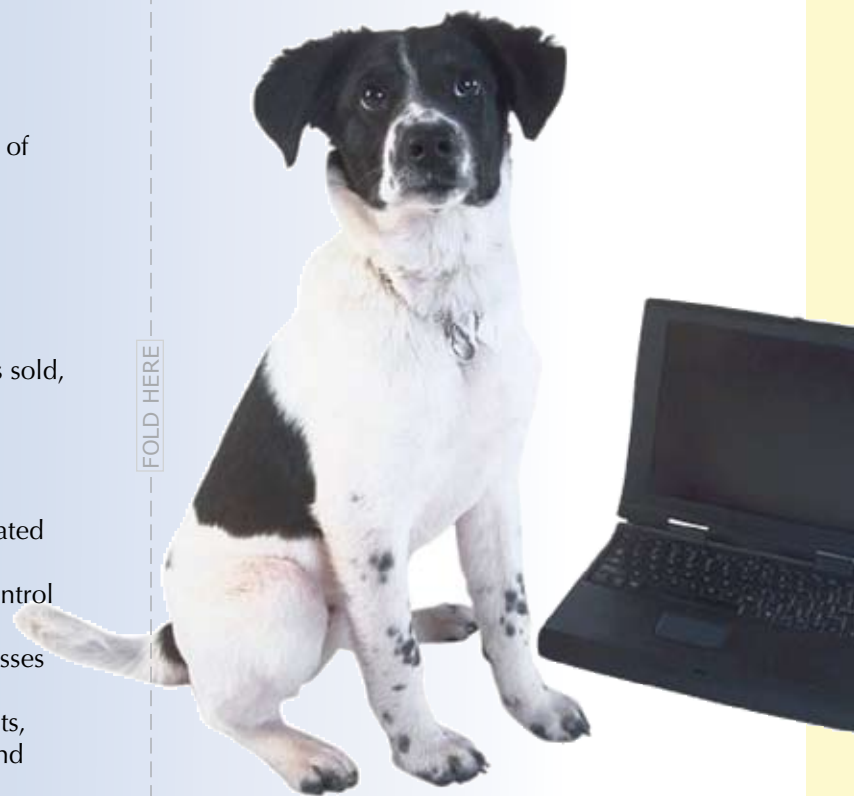

- ▶ Multiple-animal intake and batch-printing of kennel cards in compact or full-size format
- ▶ Kennel management and reporting
- ▶ Daily scheduling for behavioral evaluations, moves/transfers, euthanasia, vaccinations, medications, spay/neuter, and more
- ▶ Automated Petfinder/Pets911 export
- ▶ Do Not Adopt and Questionable Pet Owner lists
- ▶ Foster-animal tracking
- ▶ Animal Match with instant results
- ▶ Dispatch, enforcements, and cases
- ▶ General ledger with G/L numbers, Chart of Accounts, and full export capability
- ▶ Fee receipts with unlimited fee items, automated sales tax calculation, and nonsufficient funds notifications
- ▶ On-line donations and tracking
- ▶ Inventory system with orders, on-hand quantities, automatic deduction of items sold, shrinkage, history, and restock reporting
- ▶ Statistics exports with monthly/yearly comparisons
- ▶ Unlimited shelters/facilities
- ▶ Notifications and reminders with automated e-mailing
- ▶ Unlimited user-access levels with full control over permissions structures
- ▶ Unlimited people with AKAs, IDs, addresses and history, phones/e-mails, associated animals and people, cases, enforcements, receipts, donations, completed forms, and permits/licenses
- ▶ Distribution lists and merge documents for mailing and e-mailing
- ▶ Unlimited user-defined Web pages with custom layout styles

ANYWHERE, ANYTIME ACCESS

Yes, you *can* take it with you! Work at the shelter. Work in your car. Work from home. Work on the beach in Hawaii, if that's what you need to do (fruity drink with teeny paper umbrella optional). A computer with Internet access is all you need. And your ACOs can take AC Plus 7.0 with them on the road using the optional Field Module.

ANIMALS. DONORS. CASES. STAFF. TOGETHER AT LAST

AC Plus 7.0 includes features previously found only in separate, costly software packages: shelter management, staffing and volunteers, scheduling and calendar, donor management, mailing lists and e-mail blasts, dispatch, cases, and enforcements, animal licensing and permits, general ledger and fee receipts, custom forms and merge documents, design-your-own reports, and much more.

SO POWERFUL IT WILL EVEN TIE YOUR SHOES

Okay, maybe that's a slight exaggeration (although you could use our Notifications program to *remind* you to tie your shoes). But there is so much cool stuff in AC Plus 7.0 – stuff you won't find anywhere else – that we just had to tell you about it: Hundreds of full-color charts and graphs. Time-tracking and statistical analysis for dispatch. Custom forms and merge documents. Behavioral evaluations. Automatic calculation of availability dates and animal ages. Automated clock-in and clock-out. A full public Web site with tons of design options. Inventory. Scheduling. Animal match. Lost and found. Quarantine. Vaccinations, medications, and controlled-substance tracking. On-line license renewals. Membership. Trap rentals. Detailed statistics exports. PDF output of any screen or report. And the list goes on. You won't find the breadth of features offered by AC Plus 7.0 in any other shelter software package. We don't rest on our laurels, either – we're constantly adding new features. And we listen: if you have a comment or a suggestion, we'd love to hear from you.

HAVE IT YOUR WAY

You're never limited to doing things "our way" – or anyone else's way, as far as that goes. Add or change breeds, vaccines and medications, behavioral evaluation forms, and almost everything else in your AC Plus 7.0 system. And shortcuts like standard vaccinations and scheduling items help you make the most of your time.

LEASE OR PURCHASE

The choice is yours: You can lease AC Plus 7.0 or run it in-house on your local Windows network. Either way, your license covers unlimited computers and users with no annual upgrade or maintenance fees.

YOUR DATA IS SAFE WITH US

With an AC Plus 7.0 lease, you get your own private (not shared) database and Web site on a dedicated server with full redundancy, protected by a state-of-the-art data center and daily back-ups.

DUMP YOUR OLD SYSTEM (INTO AC PLUS 7.0, THAT IS!)

Sick and tired of sluggish performance, hardware and software glitches, and high costs? Get rid of that old software! We can convert your data so that your history is immediately and permanently accessible. Please contact us for details.
